The screenshot shows the Wanzl Facilities Administration interface. At the top, there is a navigation bar with the Wanzl logo, 'Facilities', and several menu items: 'Administration', 'Events', 'Cards', and 'Statistics'. On the right, there is a user profile 'admin', a 'Sign out' button, and a language selector set to 'English'. Below the navigation bar, the 'Facilities' section is active. A 'New' button is on the left, and a 'Grid View' toggle switch is highlighted with a red box and a hand cursor. To the right of the toggle are two dropdown menus: 'Location: Select locations' and 'Position: Select positions'. Below these are several mode buttons: 'Normal', 'Lock', 'Entry: Lock', 'Open Service', 'Single Free', 'Exit: Lock', 'Open Service', 'Single Free', 'Clearance: On Off', and 'Emergency: On Off'. The main content is a table with columns: Name, Position, Location, Mode, and several action icons (up arrow, down arrow, gear, list, Alarm, Clear, Lock, Facility). The table lists several gates, all of which are in 'Normal' mode and have a 'Gate is disconnected' status. The gates listed are P1_GG1, P1_GG2, P1_GG3, P1_TestGate, P1_TestGate2, and TestGate_P1.

Name	Position	Location	Mode	Alarm	Clear	Lock	Facility
P1_GG1	P1	Standort	Normal	👍	⬇️	👍	
Gate is disconnected							
P1_GG2	P1	Standort	Normal	👍	⬇️	👍	
Gate is disconnected							
P1_GG3	P1	Standort	Normal	👍	⬇️	👍	👍
Gate is disconnected							
P1_TestGate	P1	Standort	Normal	👍	⬇️	👍	👍
Gate is disconnected							
P1_TestGate2	P1	Standort	Normal	👍	⬇️	👍	
Gate is disconnected							
TestGate_P1	P1	Standort					
Gate is disconnected
