General

The Wanzl Access Manager offers a central dashboard for access controls in a homogeneous interface, displays the corresponding states and supports the user in the administration of these components. The Wanzl Access Manager is a leading platform for monitoring and managing access controls of security areas.

Menu items

Facilities

<https://<dns-name or ip-address>/gates>

In this view, all access controls are displayed in an intuitive interface. There are grouping options in two categories. First, you can group by **Location**. Within the location you can then summarize different **Locations**. Individual gates can be added via the menu item "**New**".

The screenshot shows the maxcrc management dashboard interface. At the top, there is a navigation bar with the brand name "wanzl" and various menu items: Anlagen, Administration, Ereignisse, Karten, and Sonstiges. On the right side of the header, there are user authentication details (admin, Abmelden), language selection (Deutsch), and a help icon. Below the header, the main content area is titled "Anlagen". It features a toolbar with buttons for "Neu" (New), "Rasteransicht" (Grid View) which is turned on, "Standort:" (Location) dropdown, "Position:" (Position) dropdown, and several status buttons for "Normal", "sperren", "daueroffen", and "einzelfreig.". There are also buttons for "Ausg.", "Reinigung:", and "Notfall:". A zoom control ("Maßstab") and a selection button ("Alle markieren") are also present. The main display area shows two groups of access controls labeled "P1 GG1" and "P1_GG2". Each group contains several buttons for "einzelfreig.", "sperren", "daueroffen", and "daueroffen" (with a blue border). Below these buttons are "EINGANG" and "normal" buttons. At the bottom left, there are icons for "Normal" (green checkmark) and "kein freier Austritt" (blue exclamation mark). The bottom right shows a red "Getrennt" (Separated) icon. The overall interface is designed for managing multiple access points and their configurations.

When the light view is off, the access controls are shown in the list.

When one or more facilities are selected with the control,

the facilities can be controlled with the following buttons:

Symbol	Description	Note
Normal sperren	change to normal state, lock the doors in both directions	
sperren daueroffen einzelfreig.	open the door permanently or open it for a single person	towards the entrance
sperren daueroffen einzelfreig.	open the door permanently or open it for a single person	toward the exit
An Aus	Turn the Cleaning mode on and off	cleansing
An Aus	Toggle Emergency Open mode on and off	Emergency

The Gate display contains the following controls:

Symbol	Description	Note
	choose the gate	to activate the buttons above (Normal, Lock Out , etc.)
P1_GG1	Navigate to the Facilities page	

		Navigate to the page Gate-View	
normal		change to Normal state	
sperren		lock the doors in both directions	
einzelfreig.		open the door in the direction of entrance/exit for a single person	
einzelfreig.		lock the door in the direction of entrance/exit	
daueroffen		permanently open the door in the direction of entrance/exit	

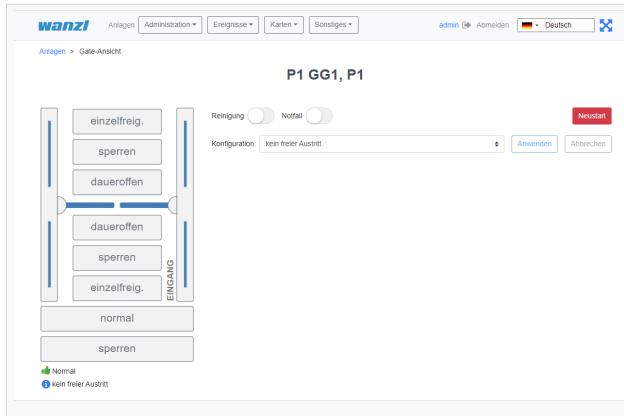

The symbols under the gate convey various information about it:

Symbol	Description	Note
	No connection to the gate	
	The gate is in the Normal state	
	The gate is in the Locked state	
	The gate is in the fire alarm state	
	The gate is in the emergency open state	
	The cleaning mode is active	
	Alarm is active at the gate	
	The gate is permanently open	
	One or more devices at the gate have failed	
	Current selected configuration of the gate	Only if there are two or more configurations at the gate

Gate-View

In this view, you can observe the state of each gate, control the gate, and apply the gate's configurations (if there are two or more).

These buttons allow you to perform various actions:

Symbol	Description	Note
Reinigung	Turn cleaning mode on and off	
Notfall	Manually switch the emergency open state on and off	
Neustart	Restart the gate	
Konfiguration: kein freier Austritt	Choose a new configuration of the gate from the combo box	Only if there are two or more configurations at the gate
Anwenden	Apply the new configuration	
Abbrechen	Do without the new configuration	

Set up a new Gate

In this view you create a **New** gate. The fields **Names**, **Displayed Name** and **Position** of the Gate must be verified with values. Then click on Facilities.

Facilities > New Gate

Name: pg_TestGate

Display name: pg_TestGate

Position: P1

Disable notifications:

Locked:

Save Cancel New Delete

Cards Edit

You can now see in the view that you have created a **NEW** gate, in this case the fourth gate in this view.

Datei:FMCU NewGatemain.png

In the next step you connect the gate to the server.

`https://<IP-Adresse des Dashboards>`

To do this, check on the **General** tab that the correct gate name has been entered.

Datei:FMCU 5.png

Then check the following points on the **Server** tab.

Server#0 (server)- must be set to remote.

Activated slide-switch is activated.

Your server should be entered under Name*.

Your URL should be entered under URL*.

Gate should be entered under Username*.

Your password should be entered under Password*.

Save at the end.

In the next step, please click on System in the top bar.

The screenshot shows the WANZI management interface. The top navigation bar has tabs for Home, Dashboard, Status, Konfiguration, **System**, WEAC, Dateien, and Statistik. The System tab is highlighted with a red arrow pointing to it. Below the tabs, there are several sub-tabs: Allgemein, Geräte, Alarmliste, Signale, Ausgangssignale, Dispatchers, Bildschirme, Server, Diamox Aktualisieren, and KonfigurationsTyp. The main content area is titled "Server #0 (server)" and contains fields for "Fern", "Aktiviert" (with a green switch), "Schleuse" (with a grey switch), "URL des Gates (z.B. http://localhost:8888)", "Pause nach Verbindungsauftakt, Sekunden", "Name", and "Server #0". There are also "Speichern" and "Abbrechen" buttons at the bottom left.

You will now see the following display, here please press restart once. Now your new gate should be connected.

The screenshot shows the same WANZI management interface as above, but the "System" tab is still selected. A red arrow points to the "Neustart" button, which is highlighted in red. Other buttons like "System neu starten" are also visible. The main content area displays terminal logs with error messages related to libusb initialization and device detection.

Finally, you can check the connection in the **Status** tab. **CONNECTED** must now appear under State.

The screenshot shows the WANZI management interface with the "Status" tab selected, indicated by a red arrow. The main content area is divided into sections: "Server" (listing a "Fan" entry with "Letzter Fehler" and "Zustand Verbunden"), "Bildschirme" (listing "Display Entry" and "Display Exit" with URLs), and "Geräte" (listing various "Simulator" entries like "Simulator", "Light Bar", "Audio-Player", "Slave FMCU", "Led Player", and "Led Player" with their respective "Zustand" and "Fehler" status). A "Verbindungsfehler" button is located at the bottom right of the "Server" section.

Edit existing Gate

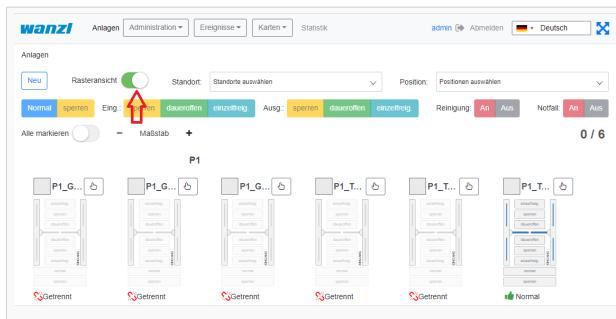

`https://<dns-name or ip-address>/gates`

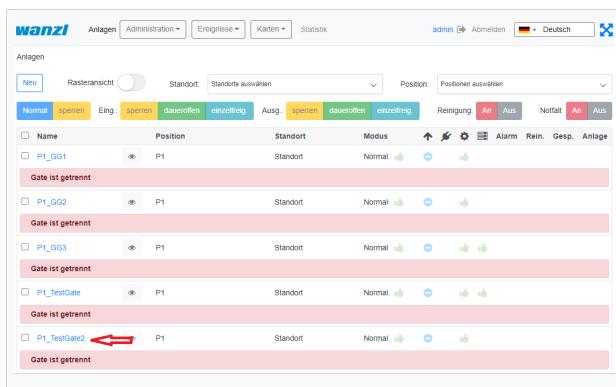

Gate ~ FMCU ~ management dashboard/en

You are in the same view as where you would create a new gate.

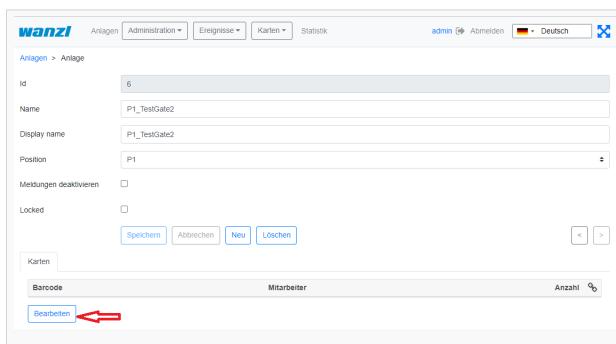

Please move the slide switch "Grid view" to the left.

In the view click on the name of the gate which you want to edit (in the example P1_TestGate2).

In this view, please press the "Edit" function.

You can now edit the gate in this view.

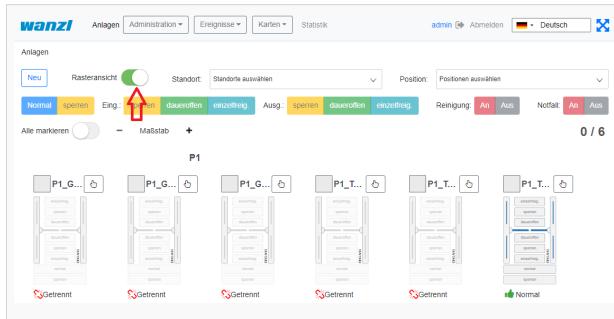

Remove Gate

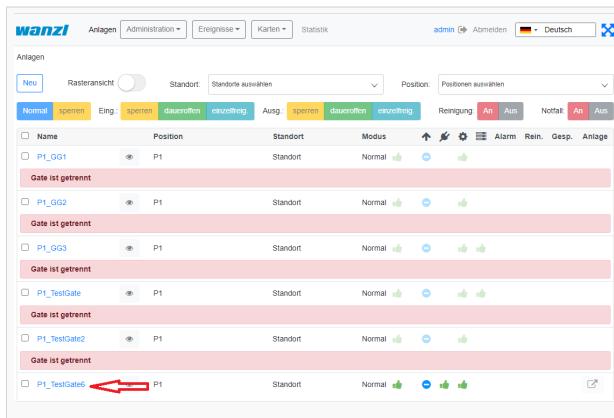

<https://<dns-name or ip-address>/gates>

You are in the same view as where you would create a new gate.

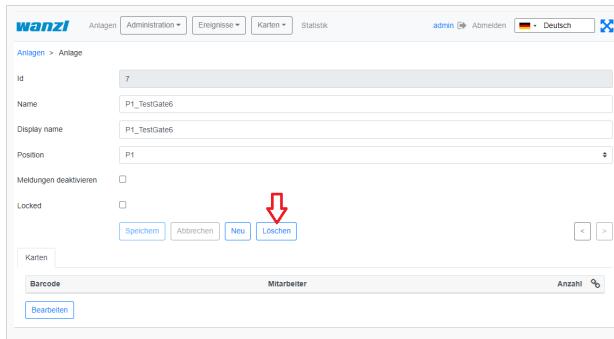

Please move the slide switch "Grid view" to the left.

In the view click on the name of the gate which you want to delete (in the example P1_TestGate6).

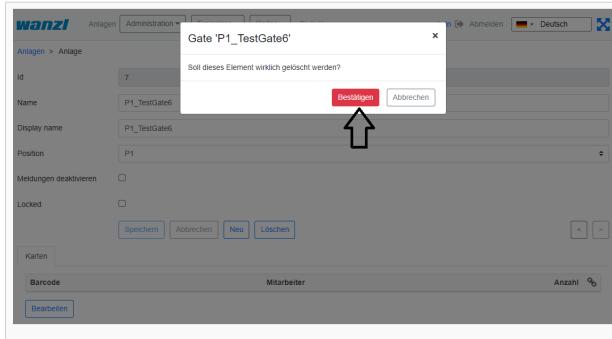

In this view, please press the "Delete" function.

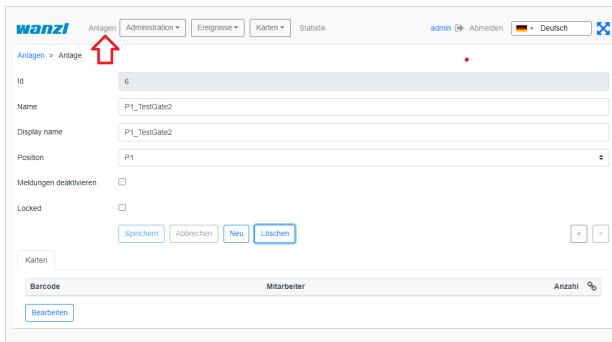

Gate ~ FMCU ~ management dashboard/en

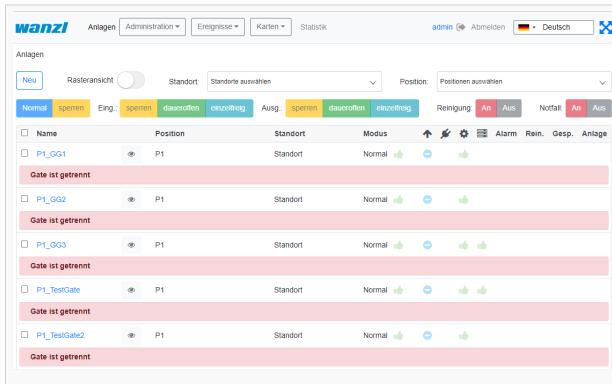

To be on the safe side, you will now be asked again whether you really want to delete the element? Please confirm this.

After deleting, you will automatically be shown the next gate (here in the example P1_TestGate2). Please click on attachments here.

You will then see in the grid view that Gate P1_TestGate6 is missing and has been successfully deleted.

Administration

User

`https://<dns-name or ip-address>/users`

Auf dieser Seite sehen Sie eine Übersicht aller Benutzer

The screenshot shows a navigation bar with links for Anlagen, Administration, Ereignisse, Karten, Statistik, Abmelden, and language selection (Deutsch). Below the navigation is a search bar labeled 'Benutzer' with fields for 'Standort' (selected '2') and 'Position' (selected '3'). A table lists three functions:

Nummer	Funktion
1	Neuen Benutzer anlegen
2	Benutzer nach Standort filtern
3	Benutzer nach Position filtern

Set up new User

Klicken Sie unter **Benutzer** auf den Button **Neu**

The screenshot shows a form for creating a new user. Fields include: Id (empty), Benutzername (empty), Passwort (empty), Bestätige das Passwort (empty), Email (empty), Vorname (empty), Nachname (empty), Info (empty), Superuser (unchecked), Locked (unchecked), and Meldungen deaktivieren (unchecked). At the bottom are buttons for Speichern, Abbrechen, Neu, Löschen, and Passwort zurücksetzen, along with navigation arrows and tabs for Ereignisbenachrichtigungen, Standorte & Positionen, Gruppen, and Berechtigungen.

Feldname	Beschreibung
Id	Automatisch generierte eindeutige Nummer des Benutzers

Benutzername*	Benutzername des Benutzers für die Anmeldung
Passwort*	Passwort des Benutzers für die Anmeldung
Email	Email Adresse des Benutzers zum Versand von Log Nachrichten
Vorname	Vorname des Benutzers
Nachname	Nachname des Benutzers
Info	Beschreibung des Benutzers
Superuser	Die höchsten Rechte werden dem Benutzer vergeben
Locked	Die Anmeldung des Benutzers ist gesperrt
Meldungen deaktivieren	Der Benutzer erhält keine Benachrichtigungen im FMCU Management Dashboard

* Unbedingt erforderliche Felder Durch den Button **Speichern** wird der neue Benutzer angelegt.

Edit existing User

Klicken Sie unter [Benutzer](#) auf den zu bearbeitenden Benutzer

Event Notifications

Unter diesem Reiter können die Benachrichtigungen ausgewählt werden welcher der Benutzer erhalten soll.
Hinweis: Ist die Checkbox **Meldungen deaktivieren** gesetzt werden unabhängig von diesen Einstellungen keine Benachrichtigungen angezeigt.

Locations & Positions Tab

Man kann unterschiedliche Standorte in Länder und Städte festlegen. Über das Berechtigungsmodell lassen sich separate Zugriffsrechte für jeden Standort definieren.

Groups Tab

Unter diesem Reiter können Sie die Gruppenmitgliedschaften des Benutzers anpassen.

Permissions Tab

Unter diesem Reiter werden die Berechtigungen des Benutzers angezeigt
Durch den Button **Speichern** werden alle Änderungen angewendet.

Groups

<https://<dns-name or ip-address>/groups>

Auf dieser Seite sehen Sie eine Übersicht aller Gruppen

The screenshot shows a web-based management interface. At the top, there is a navigation bar with links for 'Anlagen', 'Administration', 'Ereignisse', 'Karten', and 'Statistik'. On the right side of the navigation bar, there is a user session indicator ('admin' with a gear icon) and a language selection dropdown set to 'Deutsch'. Below the navigation bar, the page title is 'Gruppen'. In the center, there is a table with four rows, each representing a group. The columns are labeled 'Name' and 'Info' (which is currently empty). To the right of the table, there is a column labeled 'Löschen' (Delete) with a trash can icon. The group names listed are 'manager', 'user', 'gate', and 'alarm_notifications'. A blue-bordered button labeled 'Neu' (New) is visible above the table.

Name	Info	Löschen
manager		
user		
gate		
alarm_notifications		

Set up new Group

<https://<dns-name or ip-address>/new-group>

Klicken Sie unter **Gruppen** auf den Button **Neu**

The screenshot shows a 'Neu Gruppe' (New Group) setup page. At the top, there is a navigation bar with links for 'Anlagen', 'Administration', 'Ereignisse', 'Karten', and 'Statistik'. On the right side of the navigation bar, there is a user session indicator ('admin' with a gear icon) and a language selection dropdown set to 'Deutsch'. Below the navigation bar, the page title is 'Gruppen > Neu Gruppe'. The main form has three input fields: 'Id' (with a placeholder '1'), 'Name' (with a placeholder 'New Group'), and 'Info' (with a placeholder 'New Group Info'). Below the input fields are four buttons: 'Speichern' (Save), 'Abbrechen' (Cancel), 'Neu' (New), and 'Löschen' (Delete). To the right of the buttons are two small navigation arrows (< and >). Below the main form, there are two tabs: 'Benutzer' (selected) and 'Berechtigungen'. Under the 'Benutzer' tab, there is a table with columns: 'Benutzername', 'Email', 'Vorname', 'Nachname', and 'Info'. A blue-bordered button labeled 'Bearbeiten' (Edit) is located at the bottom left of this table. At the very bottom of the page, there is a table with two columns: 'Feldname' and 'Beschreibung'.

Feldname	Beschreibung
----------	--------------

Id	Automatisch generierte eindeutige Nummer der Gruppe

Code*	Ländercode des Standorts
Info	Beschreibung des Standorts

* Unbedingt erforderliche Felder

Klicken Sie auf den Button **Speichern** um die Position anzulegen

Edit existing Location

Under [Location](#) Under Location, click the location you want to edit

Hier können Sie die den Namen, den Code sowie die Info des Standorts bearbeiten

Locations & Positions

`https://<dns-name or ip-address>/locations`

Here you can see an overview of all positions and their assigned locations

Configuration

`https://<dns-name or ip-address>/configurations`

Events

Events

`https://<dns-name or ip-address>/events`

In this view, the events of all access controls are shown in an intuitive list view. There are filtering options and a name search for the events.

The screenshot shows a web-based management interface for events. At the top, there is a navigation bar with links for Anlagen, Administration, Ereignisse, Karten, and Statistik. On the right side of the navigation bar, there is a user session (admin) and language selection (Deutsch). Below the navigation bar, the page title is "Ereignisse". The main content area contains five numbered filter options:

- 1 Standort: Standorte auswählen
- 2 Position: Positionen auswählen
- 3 Anlage: Anlage auswählen
- 4 Suche: Search...
- 5 01.02.2021 - 28.02.2021 Ändern

Below the filters, there are buttons for Benutzerdefinierter, Heute, Gestern, Stop, and a result count of 39947 / 39947. At the bottom, there is a table header with columns: Datum, Name, Anlage, Zu, Ka, Info.

The following filters can be set:

1. Location
2. Position
3. Factory
4. Search by Event name
5. Time Period

Event Definitions

`https://<dns-name or ip-address>/event-definitions`

In this view, all events that the FMCU contains are listed and their event definition groups, supported states and categories are assigned.

The screenshot shows a list view of event definitions. At the top, there is a navigation bar with links for Anlagen, Administration, Ereignisse, Karten, and Statistik. On the right side of the navigation bar, there is a user session (admin) and language selection (Deutsch). Below the navigation bar, the page title is "Ereignisdefinitionen". The main content area displays a table with columns: Name, Ereignisdefinitionsgruppen, Unterstützte Zustände, and Kategorie.

Event definition Groups

`https://<dns-name or ip-address>/event-definition-groups`

All event definition groups are listed under this tab.

The screenshot shows a list of event definitions under the category 'Alarm events'. The columns are 'Name', 'Ereignisse', 'Info', and 'Löschen' (Delete). The events listed are: ServerGateDevicesFailed, ServerGateAllDevicesOperational, GateUnauthorizedAccess, GateStateFireAlarm, and GateDoorIsBeeingBroken. A 'Neu' (New) button is visible at the top left of the list.

Name	Ereignisse	Info	Löschen
Alarm events	ServerGateDevicesFailed ServerGateAllDevicesOperational GateUnauthorizedAccess GateStateFireAlarm GateDoorIsBeeingBroken		

Create a new Event definition Group

Click [Event defenition groups](#) on the Button **New**

The screenshot shows the 'New Event Definition Group' form. It includes fields for 'Id' (disabled), 'Name' (with placeholder 'Name'), and 'Info' (with placeholder 'Info'). Below the form are buttons for 'Speichern' (Save), 'Abbrechen' (Cancel), 'Neu' (New), and 'Löschen' (Delete). At the bottom, there is a 'Ereignisdefinitionen' section with a table of field descriptions.

Name	Info	Kategorie	Ausgewählt
Fieldname	Description		
ID	Automatically generated unique group number		
Name	Name of the group		
Info	Group description		

* Absolutely required fields

Under the **Event defenition** tab select the event definitions that are to be assigned to the group.

Event Subscriptions

<https://<dns-name or ip-address>/event-subscriptions>

There is the possibility to link groups of alarm messages with groups of users. As a result, only group members are notified of alarm messages that are also grouped,

Fieldname	Description
ID	internal value
Group	Summary of users
Ereignisdefinitionsgruppe	Event definition group
Locked	Notifications deactivated/activated
Info	Description field

Notifications

<https://<dns-name or ip-address>/notifications>

Sent notifications are displayed in this overview. You can adjust the view accordingly using a date filter.

Cards

Cards

<https://<dns-name or ip-address>/cards>

This view shows an overview of the RFID cards in the system with the gates enabled for access.

Karten
