The screenshot shows the Wanzl Facilities Administration interface. At the top, there is a navigation bar with the Wanzl logo, 'Facilities' tab, and sub-menus for 'Administration', 'Events', and 'Cards'. The user is logged in as 'admin' and the language is set to 'English'. Below the navigation bar, the 'Facilities' section is active, showing a 'Grid View' toggle and filters for 'Location' and 'Position'. A control bar at the top of the grid allows switching between 'Normal', 'Lock', 'Open Service', and 'Single Free' modes for 'Entry' and 'Exit', as well as 'Clearance' and 'Emergency' status (On/Off). The main grid lists several gates, all of which are 'Disconnected'. The 'TestGate_P1' entry is highlighted with a red box and a hand icon, indicating it is selected.
