The screenshot displays the Wanzl Facility Management System interface. At the top, there is a navigation bar with tabs for 'Facilities', 'Administration', 'Events', and 'Cards'. The user 'admin' is logged in, and the language is set to 'English'. Below the navigation bar, the 'Facilities' section is active, showing a 'Grid View' toggle and dropdown menus for 'Location' and 'Position'. A control bar at the top of the grid view allows switching between 'Normal', 'Lock', 'Entry', and 'Exit' modes, with sub-options like 'Lock', 'Open Service', and 'Single Free'. There are also 'Clearance' and 'Emergency' status buttons. The main grid lists several gates, all of which are currently 'disconnected'. The gate 'TestGate_P1' is highlighted with a red box.

Name	Position	Location	Mode	Alarm	Clear.	Lock.	Facility
P1_GG1	P1	Standort	Normal	👍	👎	👍	
Gate is disconnected							
P1_GG2	P1	Standort	Normal	👍	👎	👍	
Gate is disconnected							
P1_GG3	P1	Standort	Normal	👍	👎	👍	👍
Gate is disconnected							
P1_TestGate	P1	Standort	Normal	👍	👎	👍	👍
Gate is disconnected							
P1_TestGate2	P1	Standort	Normal	👍	👎	👍	
Gate is disconnected							
TestGate_P1	P1	Standort	Normal	👍	👎	👍	
Gate is disconnected
