Introduction

The document describes how to install the **Covcheck** application server and configure a Galaxy Gate so that COVID certificates and tests presented at the gate can be validated through the server's REST API.

Installation of Covcheck Application Server

Prerequisites

- Ubuntu 22.04 with Internet access
- User with **sudo** permissions and availability of a user with ID 1000 (**cat /etc/passwd | grep 1000**)
- Archive **covid-installer.tar.gz** with the files listed in [Installation Files](#)

Installation Steps

- Connect with **ssh** to the Ubuntu server
- Copy **covid-installer.tar.gz** to the local directory
- Execute the following command:

```
tar xvf covid-installer.tar.gz && cd ./covid-installer
```

- Modify file **.env** and specify the database password (**POSTGRES_PASSWORD**) and, if necessary, host name (**ODOO_HOST_NAME**) and timezone (**TZ**):

Covcheck

```
POSTGRES_PASSWORD=gR7K6GT8MvQHpvLs
ODOO_HOST_NAME=covcheck.maxcr.de
TZ=Europe/Berlin
```

- If SSL certificates are provided for domain name **ODOO_HOST_NAME** put them into directory **/etc/nginx/certs**, e.g:

```
sudo mkdir -p /etc/nginx/certs
sudo tar xvf certs.tar.gz -C /
```

- If SSL certificates are not available, HTTP connection will be used and you need to modify file ****docker-compose**** accordingly:

- Add this section to container ****odoo****:

```
ports:
- 80:8069
```

- Comment out or remove port 80 for container ****nginx_proxy****:

```
ports:
# - 80:80
- 443:443
```

- Run the installer script:

```
script=install-covcheck.sh && chmod +x $script && ./script -i
```

- The installation is finished successfully if you see this line in the shell:

```
### Installation finished successfully
```

You can make sure that the Covcheck is installed and running by executing the following command:

```
curl https://covcheck.maxcrc.de/covcheck/status
```

The reply must be a JSON like as follows:

```
{
  "status": "ok",
  "last_update": "2022-07-04 12:06:34"
}
```

Configuration of Covcheck Application Server

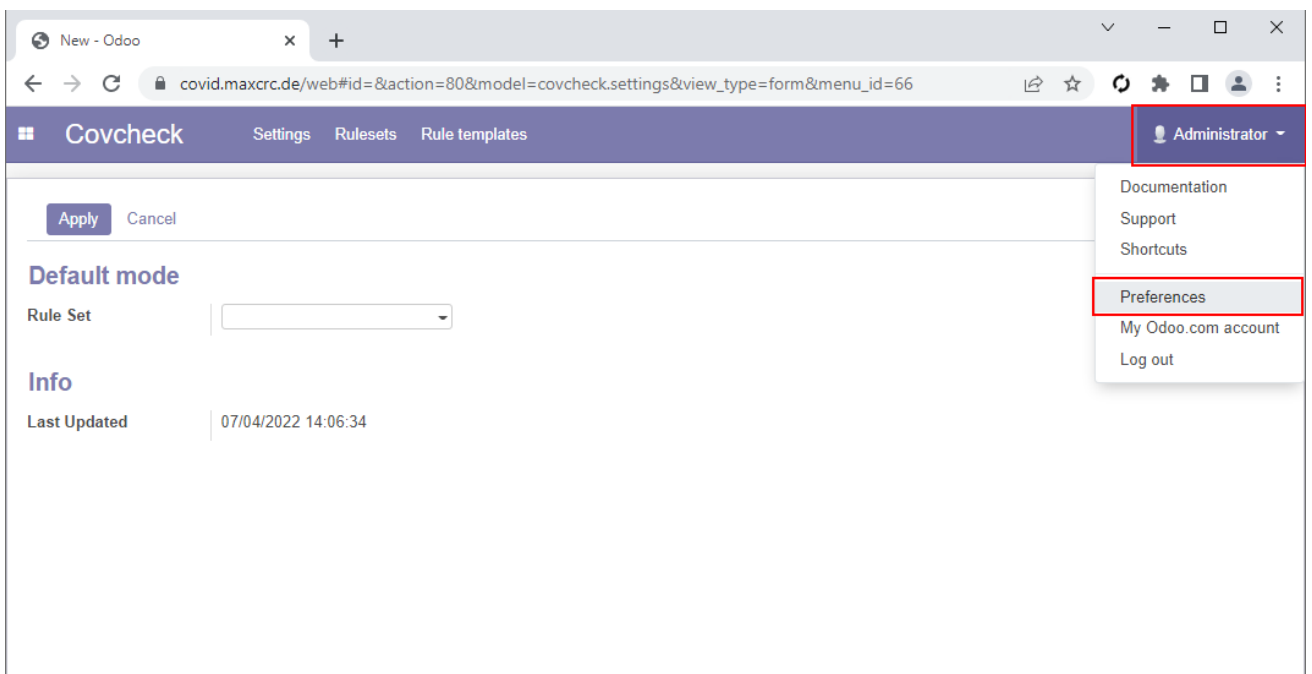

Change Default Password

Open the address of the server in a browser and logging using the following default credentials:

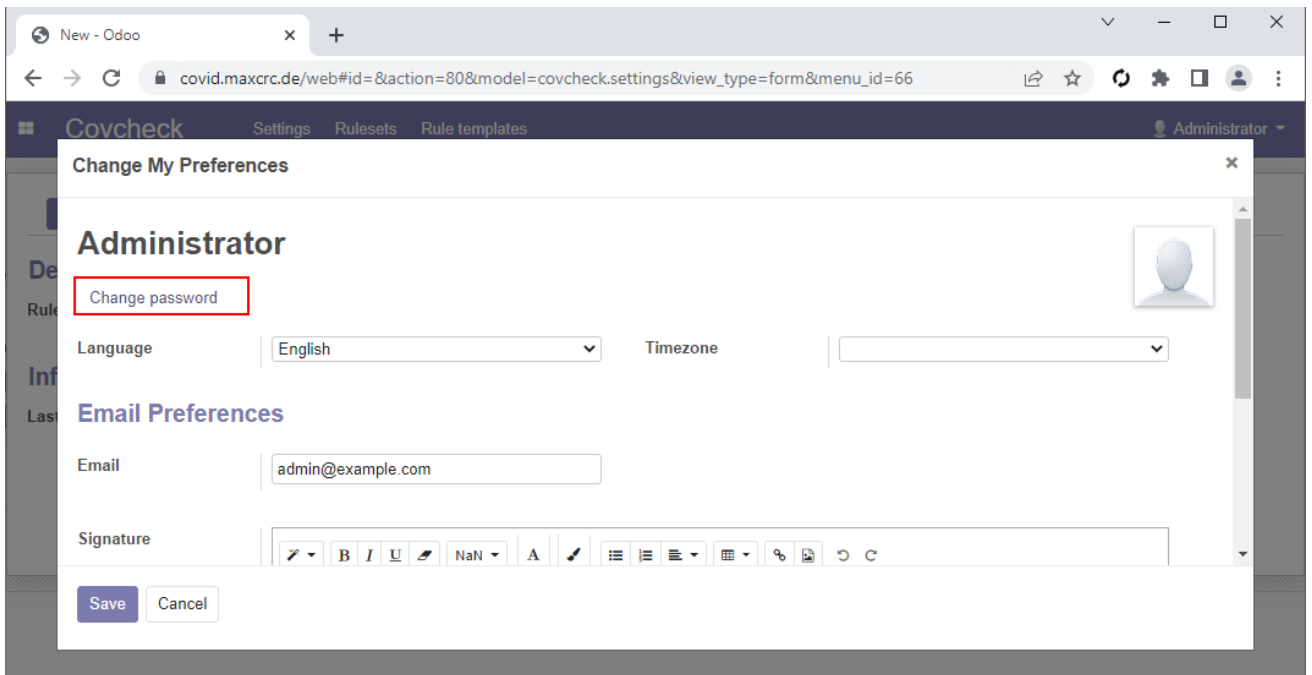

Username	Password
admin	admin

Click the **Administrator** in the top right corner and then **Preferences**:

In the opened window click **Change password**:

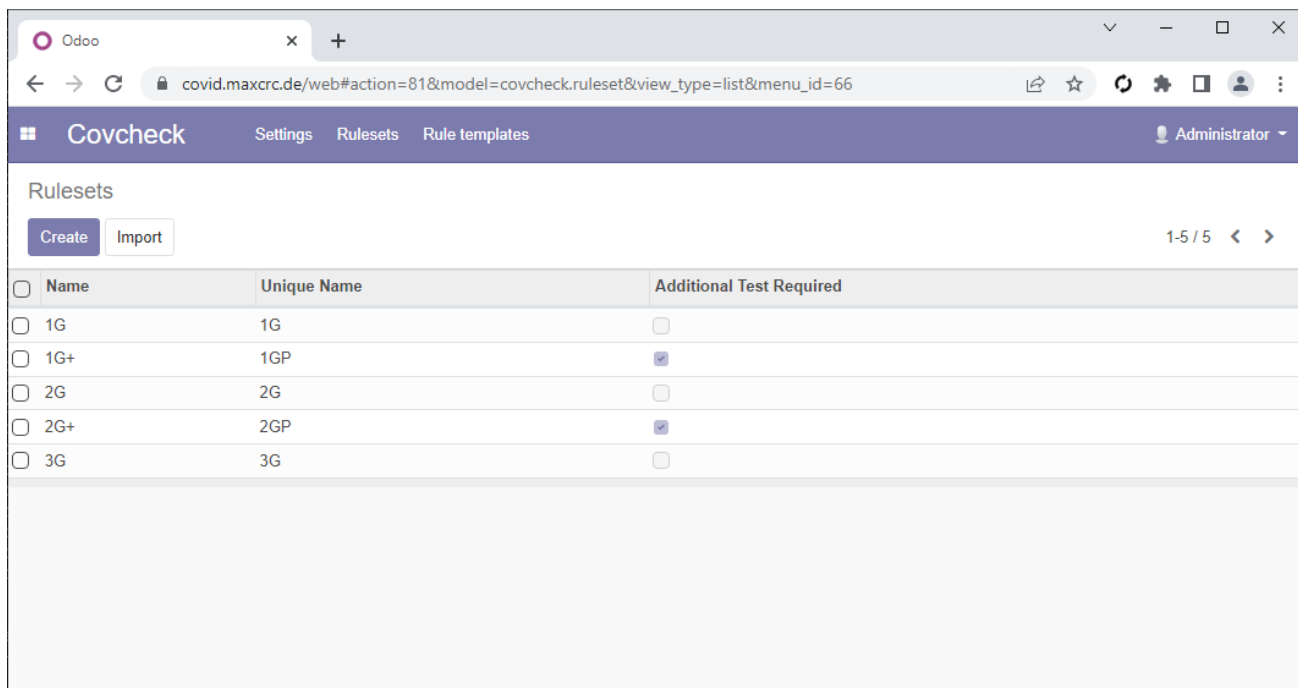

Fill-in the following fields and then click **Change Password**:

- ■ Old Password
- ■ New Password
- ■ Confirm New Password

Managing Rulesets

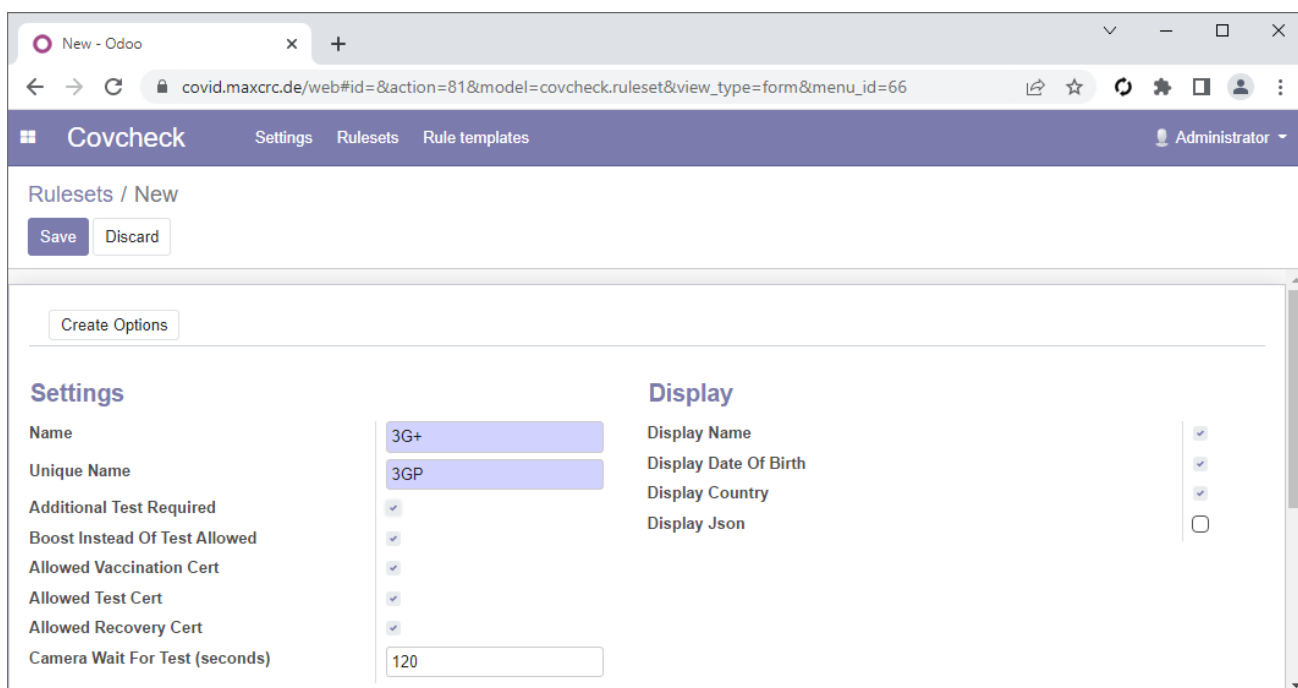

You can add, modify and delete rulesets on the **Rulesets** page:

The screenshot shows the Odoo interface for the 'Rulesets' page. The browser address bar shows 'covid.maxcrc.de/web#action=81&model=covcheck.ruleset&view_type=list&menu_id=66'. The page header includes 'Covcheck', 'Settings', 'Rulesets', and 'Rule templates', with the user 'Administrator' logged in. The main content area is titled 'Rulesets' and contains 'Create' and 'Import' buttons. Below the buttons is a table with the following data:

<input type="checkbox"/>	Name	Unique Name	Additional Test Required
<input type="checkbox"/>	1G	1G	<input type="checkbox"/>
<input type="checkbox"/>	1G+	1GP	<input checked="" type="checkbox"/>
<input type="checkbox"/>	2G	2G	<input type="checkbox"/>
<input type="checkbox"/>	2G+	2GP	<input checked="" type="checkbox"/>
<input type="checkbox"/>	3G	3G	<input type="checkbox"/>

For example, let us create a ruleset **3G+**, which requires an additional test. Click **Create** fill-in the fields **Name** and **Unique Name**, check **Additional Test Required** and click **Save**:

The screenshot shows the 'Rulesets / New' form in Odoo. The browser address bar shows 'covid.maxcrc.de/web#id=&action=81&model=covcheck.ruleset&view_type=form&menu_id=66'. The page header includes 'Covcheck', 'Settings', 'Rulesets', and 'Rule templates', with the user 'Administrator' logged in. The main content area is titled 'Rulesets / New' and contains 'Save' and 'Discard' buttons. Below the buttons is a 'Create Options' button. The form is divided into two sections: 'Settings' and 'Display'.

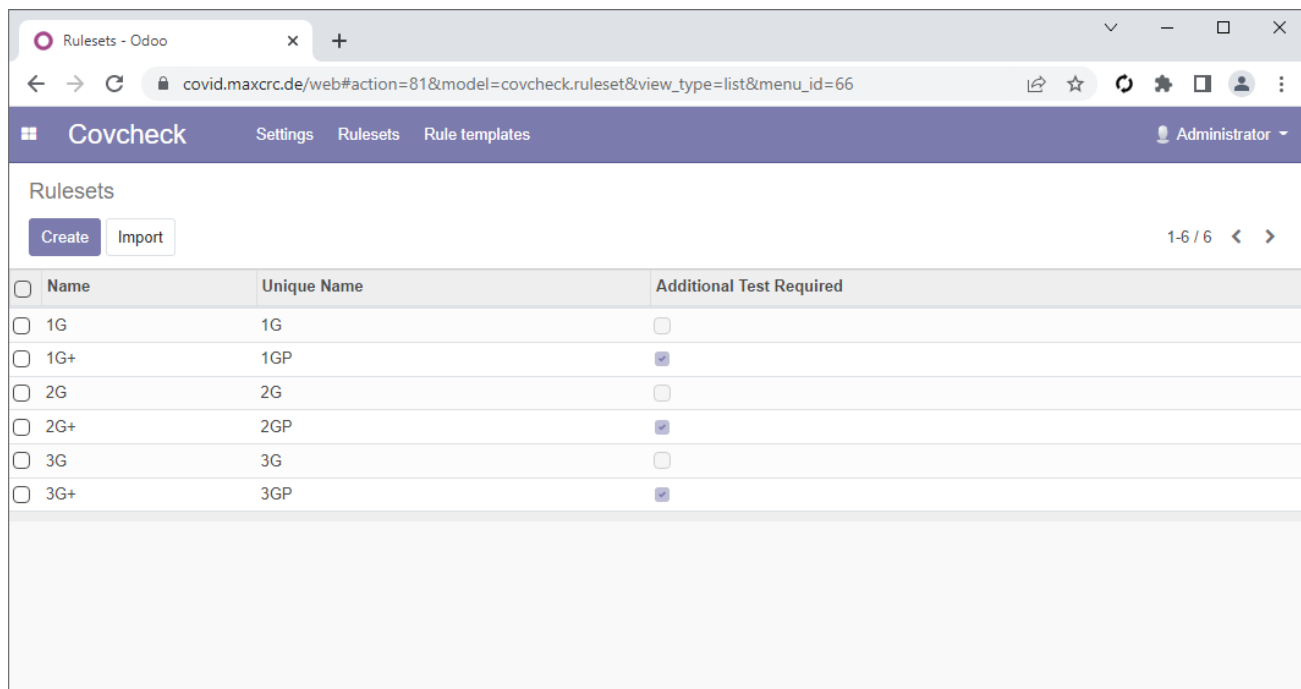

Settings

- Name: 3G+
- Unique Name: 3GP
- Additional Test Required:
- Boost Instead Of Test Allowed:
- Allowed Vaccination Cert:
- Allowed Test Cert:
- Allowed Recovery Cert:
- Camera Wait For Test (seconds): 120

Display

- Display Name:
- Display Date Of Birth:
- Display Country:
- Display Json:

The list now includes the **3G+** ruleset:

<input type="checkbox"/>	Name	Unique Name	Additional Test Required
<input type="checkbox"/>	1G	1G	<input type="checkbox"/>
<input type="checkbox"/>	1G+	1GP	<input checked="" type="checkbox"/>
<input type="checkbox"/>	2G	2G	<input type="checkbox"/>
<input type="checkbox"/>	2G+	2GP	<input checked="" type="checkbox"/>
<input type="checkbox"/>	3G	3G	<input type="checkbox"/>
<input type="checkbox"/>	3G+	3GP	<input checked="" type="checkbox"/>

Configuration of Galaxy Gate

In order COVID certificates and tests can be validated against the Covcheck server the proper dispatcher and display must be selected and configured.

Dispatcher

Open the URL of the gate, login with the user **wanzl** and navigate to the **Configuration** page. Select tab **Dispatchers** and click **New**:

In the combo box under the title **Dispatcher** select **Covcheck**, modify the following properties if needed and click **Save**:

URL

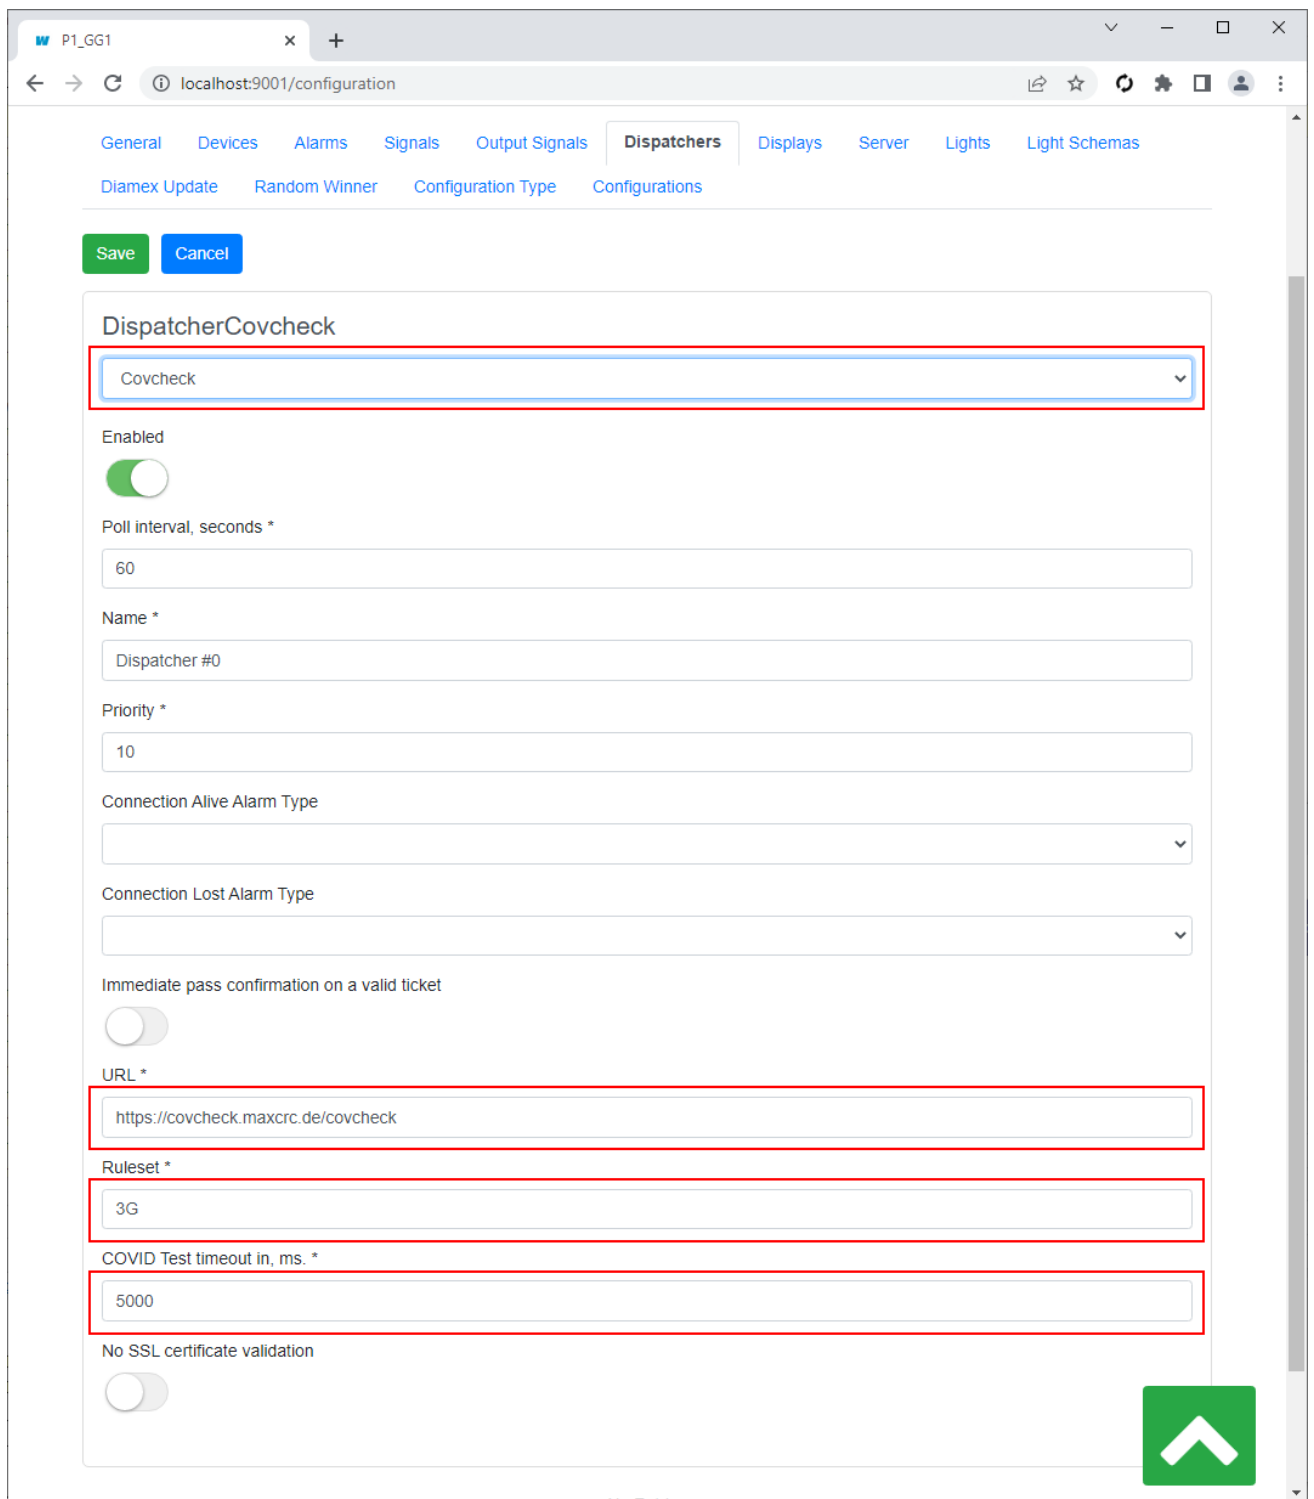

Base URL of Covcheck's API

Ruleset

Ruleset for validating COVID certificates and tests

COVID Test timeout, ms

When a COVID test is required, specifies the timeout of waiting for it

DispatcherCovcheck

Covcheck

Enabled

Poll interval, seconds *
60

Name *
Dispatcher #0

Priority *
10

Connection Alive Alarm Type

Connection Lost Alarm Type

Immediate pass confirmation on a valid ticket

URL *
https://covcheck.maxcrc.de/covcheck

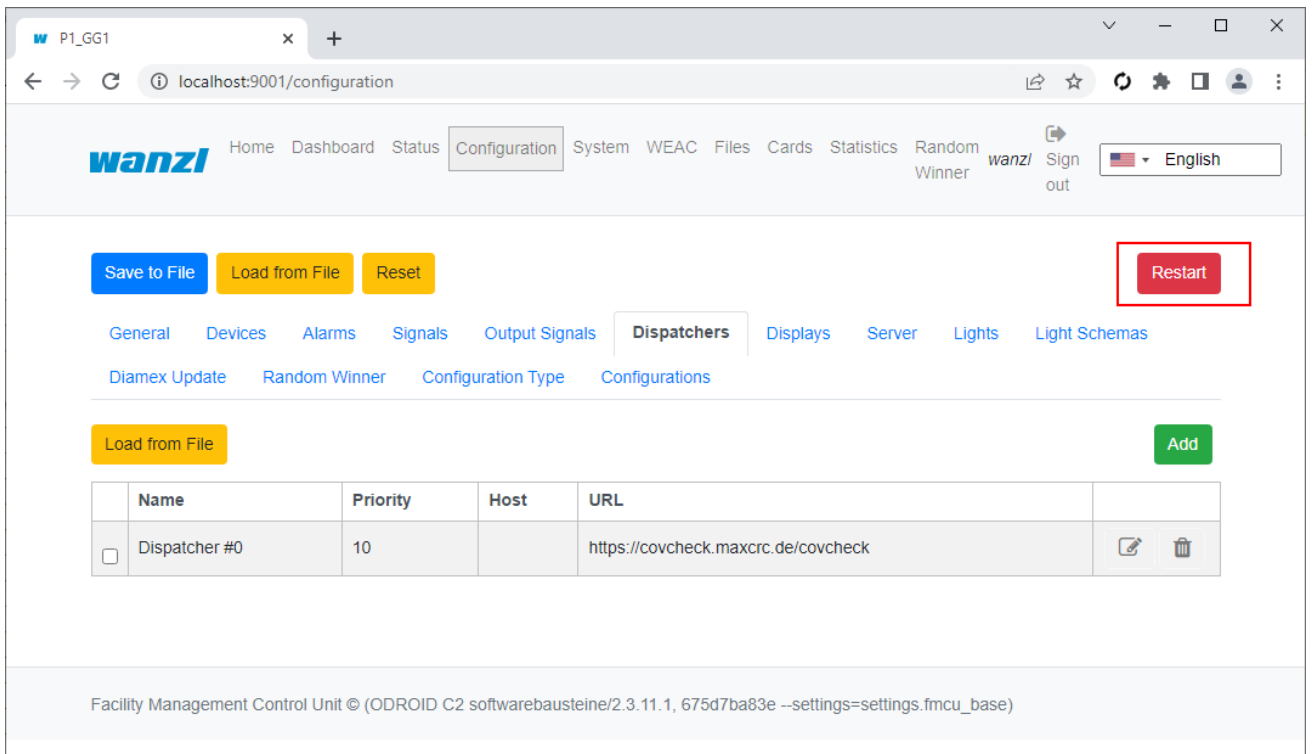

Ruleset *
3G

COVID Test timeout in, ms. *
5000

No SSL certificate validation

Restart the gate:

Covcheck

Browser: P1_GG1, localhost:9001/configuration

Navigation: Home, Dashboard, Status, **Configuration**, System, WEAC, Files, Cards, Statistics, Random Winner, wanzi, Sign out

Buttons: Save to File, Load from File, Reset, **Restart**

Sub-menu: General, Devices, Alarms, Signals, Output Signals, **Dispatchers**, Displays, Server, Lights, Light Schemas

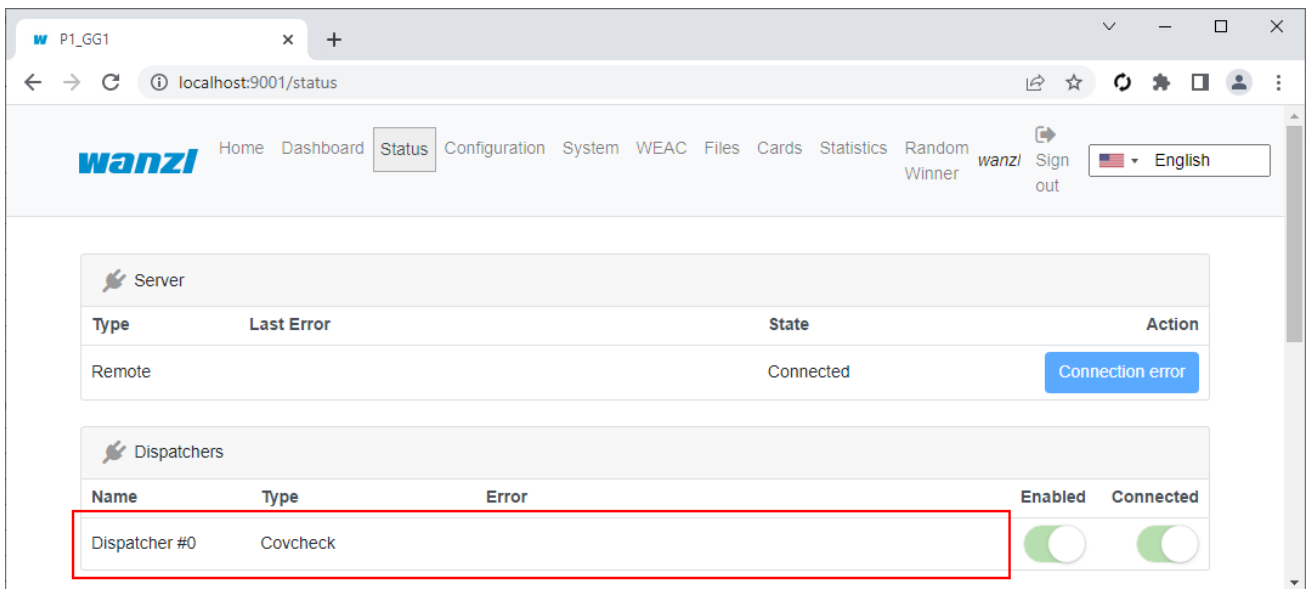

Sub-menu: Diamex Update, Random Winner, Configuration Type, Configurations

Buttons: Load from File, Add

	Name	Priority	Host	URL	
<input type="checkbox"/>	Dispatcher #0	10		https://covcheck.maxcrc.de/covcheck	

Facility Management Control Unit © (ODROID C2 softwarebausteine/2.3.11.1, 675d7ba83e --settings=settings.fmcu_base)

If the Covcheck server is available, the **Error** field is empty:

Browser: P1_GG1, localhost:9001/status

Navigation: Home, Dashboard, **Status**, Configuration, System, WEAC, Files, Cards, Statistics, Random Winner, wanzi, Sign out

Server Section:

Type	Last Error	State	Action
Remote		Connected	Connection error

Dispatchers Section:

Name	Type	Error	Enabled	Connected
Dispatcher #0	Covcheck		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

Facility Management Control Unit © (ODROID C2 softwarebausteine/2.3.11.1, 675d7ba83e --settings=settings.fmcu_base)

The screenshot shows a web browser window at localhost:9001/configuration. The interface includes a top navigation bar with buttons for 'Save to File', 'Load from File', and 'Reset'. Below this is a menu with tabs for 'General', 'Devices', 'Alarms', 'Signals', 'Output Signals', 'Dispatchers', 'Displays' (selected), 'Server', 'Lights', and 'Light Schemas'. A secondary menu includes 'Diamex Update', 'Random Winner', 'Configuration Type', and 'Configurations'. The main content area has 'Save' and 'Cancel' buttons. The configuration form for 'DisplayGateCovcheck' contains the following fields:

- Display Gate Covcheck (dropdown menu, highlighted with a red box)
- Rotate (toggle switch, off)
- Show background (toggle switch, on)
- Is any barcode valid (toggle switch, off)
- Content module * (text input: covcheck)
- Image name * (dropdown menu: main.svg)
- Gate side * (dropdown menu: Entry, highlighted with a red box)
- Name * (text input: Display Entry, highlighted with a red box)
- Feedback Interval(seconds) * (text input: 2)
- Custom layers (comma-separated pairs of existing names to custom names, e.g. idle:alles_gute) (empty text input)

At the bottom of the form are buttons for 'Select File', 'Upload', 'Download', and 'Cancel'. Below the form, it says 'No Entries' and there is a green arrow button pointing up.

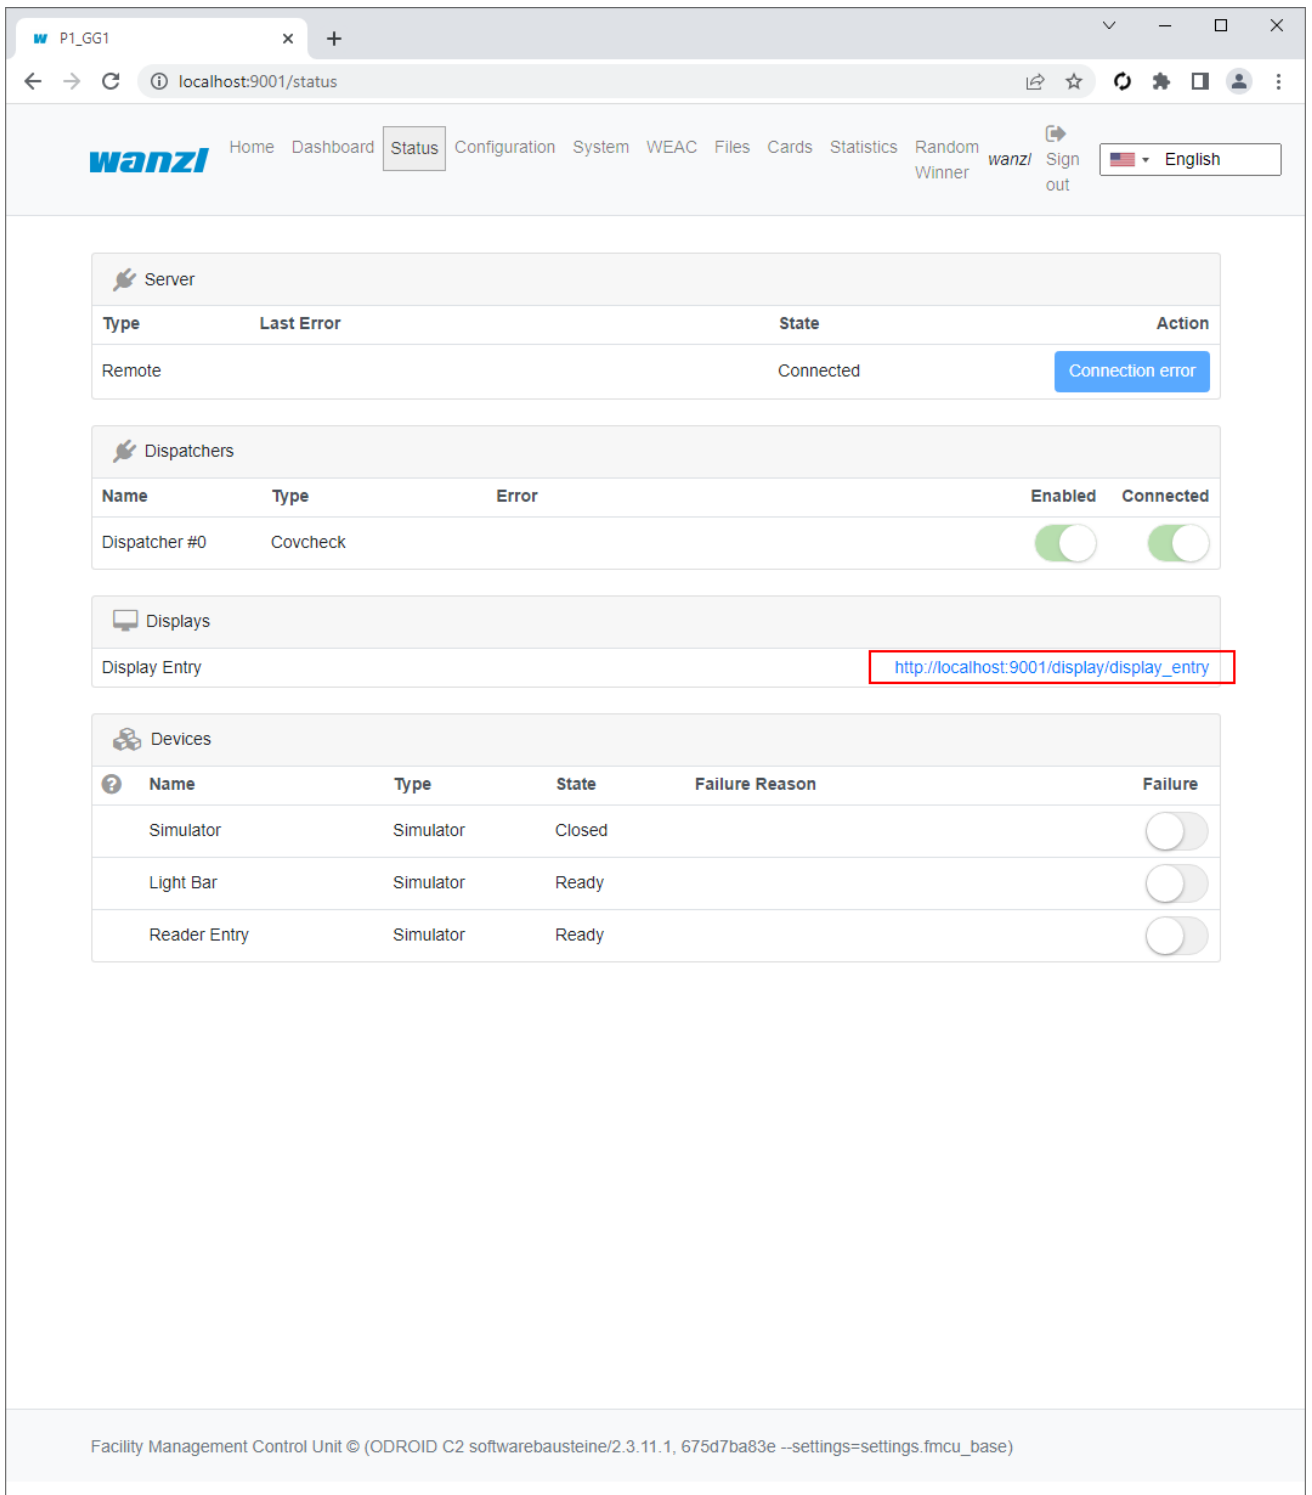

The screenshot shows a web browser window with the URL `localhost:9001/configuration`. The page title is "P1_GG1". The navigation menu includes: Home, Dashboard, Status, Configuration (selected), System, WEAC, Files, Cards, Statistics, Random Winner, wanzi, Sign out, and a language dropdown set to "English".

At the top of the configuration area, there are three buttons: "Save to File" (blue), "Load from File" (yellow), and "Reset" (yellow). A red box highlights a "Restart" button (red) in the top right corner.

Below the buttons is a horizontal menu with the following items: General, Devices, Alarms, Signals, Output Signals, Dispatchers, **Displays** (selected), Server, Lights, Light Schemas. Below this is another row of links: Diamex Update, Random Winner, Configuration Type, and Configurations.

A green "Add" button is located on the right side of the table below.

Name	Gate side	
Display #0	Entry	 

Server

Type	Last Error	State	Action
Remote		Connected	Connection error

Dispatchers

Name	Type	Error	Enabled	Connected
Dispatcher #0	Covcheck		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

Displays

Display Entry	URL
Display Entry	http://localhost:9001/display/display_entry

Devices

Name	Type	State	Failure Reason	Failure
Simulator	Simulator	Closed		<input type="checkbox"/>
Light Bar	Simulator	Ready		<input type="checkbox"/>
Reader Entry	Simulator	Ready		<input type="checkbox"/>

Facility Management Control Unit © (ODROID C2 softwarebausteine/2.3.11.1, 675d7ba83e --settings=settings.fmcu_base)

The screenshot shows a web browser window with the address bar containing 'localhost:9001/display/display_er' and 'localhost:9001/display/display_entry'. The main content area has a light blue background and features a blue icon of a hand holding a smartphone. Below the icon, the text reads 'Bitte Test-Zertifikat scannen' in a large, bold, blue font. At the bottom, there is a large blue number '5' followed by a blue hourglass icon, indicating a 5-minute time limit.
