DASHBOARD

Main elements description

The dashboard is designed to give user a convenient way of managing and controlling equipment items registered in the system. Each dashboard item represents a physical device and consists of the following elements:

The screenshot shows a web interface for configuring a gate. At the top left is the 'wanzi' logo. At the top right, there is a user menu with 'installer', 'Abmelden', and a language dropdown set to 'Deutsch'. The main heading is 'Configuration Of Gate'. Below this, there is a status indicator 'betriebsbereit' with a green checkmark. On the left is a blue 'Zurück' button, and on the right is a blue 'Weiter' button. The configuration section is titled 'Gate (gate)' and contains two input fields: 'Unit1 URL' with the value 'tcp://192.168.1.110' and 'Unit2 URL' with the value 'tcp://192.168.1.111'.
