## DASHBOARD

### Main elements description

The dashboard is designed to give user a convenient way of managing and controlling equipment items registered in the system. Each dashboard item represents a physical device and consists of the following elements:

The screenshot shows the ETISS Global dashboard interface. At the top, there is a navigation bar with 'ETISS Global' and menu items: 'Equipment Items', 'Dashboard', 'Orders', and 'Configuration'. Below the navigation bar is a search bar and filter options. The main content area displays a grid of equipment items. Each item card shows the following information:

- Name:** Equipment item name (e.g., VU70004M Gießen)
- Project:** A project to which this equipment item belongs (e.g., V17)
- Type:** Equipment item type (e.g., V17, Galaxy Gate)
- Connections:** A link to quickly connect to the item (e.g., More)
- State:** Displays current state of the equipment item (e.g., Connection Lost, Normal, Missing Components)
- Balance:** Shows the current amount of money in the Vending Unit (e.g., 0.00€, 38.20€, 0.00€)
- Events:** Shows the list of events that have happened recently (e.g., Rfid Reader Error, Hopper 3 Empty, Hopper 2 No Return Coins, Hopper 3 No Return Coins)

- **Name:** Equipment item name
- **Project:** A project to which this equipment item belongs
- **Type:** Equipment item type. In case of Vending Units, this can be either V21 or V7, or other modifications
- **Connections:** This link allows to quickly connect to the item either with ssh, or VNC and check the status.
- **Balance:** In case of VU, shows the current amount of money in the Vending Unit.
- **Events:** Shows the list of events that have happened recently.
- **State:** Displays current state of the equipment item.
