The screenshot shows the Wanzl Facilities Administration interface. At the top, there is a navigation bar with the Wanzl logo, tabs for Facilities, Administration, Events, and Cards, and a user profile for 'admin' with a 'Sign out' button. Below the navigation bar, the 'Facilities' section is active. It includes a 'New' button, a 'Grid View' toggle, and dropdown menus for 'Location' and 'Position'. A control bar below the dropdowns contains buttons for 'Normal', 'Lock', 'Entry: Lock', 'Open Service', 'Single Free', 'Exit: Lock', 'Open Service', 'Single Free', 'Clearance: On', 'Off', and 'Emergency: On', 'Off'. The main content is a table with columns: Name, Position, Location, Mode, and several action icons (up arrow, down arrow, gear, list, Alarm, Clear., Lock., Facility). The table lists six gates, all with 'P1' as the position and 'Standort' as the location. Each gate entry is followed by a red banner indicating 'Gate is disconnected'. The gate 'TestGate\_P1' is highlighted with a red box and a red hand icon.

Name	Position	Location	Mode	Alarm	Clear.	Lock.	Facility
P1_GG1	P1	Standort	Normal				
Gate is disconnected							
P1_GG2	P1	Standort	Normal				
Gate is disconnected							
P1_GG3	P1	Standort	Normal				
Gate is disconnected							
P1_TestGate	P1	Standort	Normal				
Gate is disconnected							
P1_TestGate2	P1	Standort	Normal				
Gate is disconnected							
TestGate_P1	P1	Standort	Normal				
Gate is disconnected
